

Global Survey on

# SUSTAINABLE WINE TOURISM

Attend the online webinar for FREE

TUESDAY

January 25, 2022

4 PM CET

In November 2021, [WineTourism.com](https://www.winetourism.com) together with [Geisenheim University](https://www.geisenheim-university.de) conducted an online global survey on Sustainable Wine Tourism. To gather reliable information on this topic, we collected answers from 1,579 wineries from more than 40 countries.

**The live webinar will cover topics such as:**

- What role does wine tourism play in sustainability strategies?
- How do the wineries in the different countries perceive the concept of sustainability?
- What are the most popular sustainability practices in wine tourism?

The findings of the survey will be published [here](#) on the **25th of January** after the online webinar.

Join the [event on LinkedIn](#) to receive more information and attend the webinar.
